*It's that time again. Welcome to the Silver Genetics Production Sale XXI. Last year went extremely fast and brought some changes to our lives. Landon started his first year at Oklahoma State University in August, so his time with us and time on the farm has been limited. Thankfully, Easton has had some time between sports to step up and take over his older brother's role on the farm. Dave and Janelle have enjoyed extra trips to Montana this past year and are looking forward to more in the future. Other than that, this past year has been focused on improvements to make our seed stock the best it can be. Both Silver Spur and ELS have broadened their pedigrees with some new bloodlines that we feel have worked well.*

*This year's offering consists of a stout set of yearling and 18 month old bulls including Salers, Composites, Red Angus and SimAngus. Bulls have been treated the same as in the past and have not been pushed to have excess fat. They are ready to be turned out to grass and will sustain a successful breeding season.*

*The female offering is a good, young set of cows. Percentages vary, so we should have a good selection to fit your needs if you are in the cow market. Please keep watching our website and Facebook page for sale updates with calf information to come as they are born.*

*As this letter is being written, it is extremely cold for Northwest Missouri. Temperatures in the -20s and extended snow days are not what we are used to and many records have been set this past week. It takes a lot more feed and energy for all animals during times like this, which entails more daily chores for everyone on the farm. As Paul Harvey stated in 1978 in Kansas City, Missouri, to FFA members..... "And on the 8th day, God looked down on his planned paradise and said, 'I need a caretaker' -- so, God Made a Farmer."*

*Silver Spur and ELS would like to thank you all for your support and friendships over the last 21 years and we look forward to many more.*

*David and Janelle Frueh*

*Scott, Stacy, Landon and Easton Liebhart*

- 1. Inspection of cattle.** All cattle will be available for inspection at the sale site beginning Saturday, March 22, 2025 at 1 pm. Prior to sale date cattle may be viewed at the ranch.
- 2. Terms.** Cash. Please settle for cattle promptly. No animals will be permitted to be removed from the premises until settlement is made.
- 3. Health.** All bulls have been given 5X LeptoVibrio, IBR, BVD, P13, BRSV, Multimin injection, wormed and poured and semen tested. All bulls are PI BVD tested negative. All females have been vaccinated the same way. All calves have been given a 7 way BlacklegHaemophilus and pinkeye vaccination. Health certificates will be furnished for shipment where needed. All cattle are on a Vita Ferm mineral program.
- 4. Announcements.** From the block will take precedence over information in the catalog.
- 5. Liability.** All persons attending this sale do so at their own risk, legal or otherwise for their safety or the behavior of the animals. The owners and auction service assume no liability for property loss or any accidents that may occur.
- 6. Insurance.** Will be available sale day at the settlement office.
- 7. Purchasers Risk.** Each animal becomes the risk of the purchaser as soon as sold.
- 8. Guarantee.** All animals sold in this sale are guaranteed to be breeders, provided they are properly handled and cared for. If an animal fails to breed the seller must be notified within 6 months of sale date and shall have 6 months to test the animal. Guarantee does not apply to sick or injured animals.
- 9. Delivery.** Free trucking to central locations within 200 miles. Locations over 200 miles, we will help coordinate the most economical option possible. Please contact us if you have any questions prior to the sale.
- 10. Semen Interest.** Sellers retain 1/4 semen revenue sharing interest in all bulls. Purchaser will own 100% of the possession of the animal and salvage value of the animal. Any announcements from the block will take precedence to printed material.
